

The Computer Science Graduate Society (CSGS)

CSGS is working on an initiative aimed at providing an exclusive space for CS grads (master, PhD and postdoc students) to meet up, socialize relax and maybe some a bit of reading too! There is shortage of space McGill-wide, but CSGS is trying to work with the department to secure this exclusive space and do everything possible to make that happen.

We would like to get support for all of CS grads for this initiative, so if you support it please sign your name and indicate whether you prefer this space to be dedicated to quiet study, or to socializing/relaxing/entertainment, or both! (for example, quiet space from 10am-5pm, then entertainment space after that).
